SUMMARY

Web developer skilled in HTML, CSS, JavaScript, React.js, and Next.js, with a strong passion for building responsive and user-friendly web applications. Eager to take on challenging front-end development roles to grow technical skills and contribute to impactful projects.

SKILLS

- HTML
- CSS
- JavaScript
- React.js
- Redux
- Tailwind CSS
- Material Ui
- Git
- GitHub
- Next.js
- API Integration

WORK EXPERIENCE

Avenir Innovative Solutions Pvt. Ltd.

May 2025 - Present

- Developed and maintained a live React-based project (RAMS) with role-based access control and multi-level approval workflows.
- Built responsive UI using React.js, Redux, and Material UI, and integrated REST APIs.
- Implemented dashboards, form workflows, calendar notifications, and master data management modules.

iBest Multiple Works Pvt. Ltd.

Dec 2023 - March 2025

- Worked on live project [StartupKhata.com](#) – built responsive UI and handled complete front-end using React.js, Redux, and Material UI.
- Integrated REST APIs and managed application state with Redux for smooth and efficient user experience.

SUMMER TRAINING & CERTIFICATION

Digicoders Technology Pvt. Ltd, Lucknow

Feb 2023 - Nov 2023

- Gained practical knowledge of front-end workflows and modern UI development. Completed hands-on training in web development and built a fully functional e-commerce web application using React.js and related technologies.

PERSONAL PROJECTS

E-Commerce

[Source Code](#)

[LINK](#)

- In my React.js e-commerce project, I have designed an online shopping platform with features like product browsing, filtering, cart management, adding/removing products, product listing, contact section and responsive design.

Netflix Clone

[Source Code](#)

[LINK](#)

- Designed and implemented a Netflix clone with user authentication (sign in/sign up), movie browsing and responsive UI.

Music Player

[Source Code](#)

[LINK](#)

- Built a fully responsive Spotify-style music player using React and Tailwind CSS, featuring playback controls, progress tracking, volume control, and persistent favourites using localStorage.

College Management

[Source Code](#)

[LINK](#)

- Designed and implemented College Management Project, a dynamic application designed for student information management and academic processes.
